

Skills

**Programming Languages:** Python, SQL

**Spoken Languages:** English, Chinese, Malay

**Analytics & Cloud:** SQL, Spark, Pandas, Databricks, AWS EC2, AWS S3, Azure, Git, Power BI, Tableau

**ML Systems:** Agentic AI, Production ML Pipelines, Recommender Systems at Scale

Experience

MERCEDES-BENZ, Puchong, Malaysia

**Data Scientist (EV Team, work closely with MB AG and Germany AI Team)**

Jan 2024 – Present

- Owned and built end-to-end Mercedes-Benz's first production LLM charging system using Azure, Databricks and Spark that resolves ambiguous charging-station matches, processing ~1,200 pairs/min across 60+ countries,
- Built production ETL pipelines that classify DC chargers as 400V/800V from live charging-session telemetry via majority-vote consensus (Spark, Delta Lake, MongoDB), live across EMEA.
- Product Owner for EV Golden Dataset; led 3 engineers building an LLM pipeline that converted 81 MongoDB collections into a confidence-scored data catalog for AI agents, enabling instant discovery of data metadata,
- Led Code2Diagram in a team of 4, an Azure OpenAI/Python system generating architecture diagrams and documentation from enterprise codebases; deployed internally to ~50 Mercedes-Benz engineers.
- Won the 2024 Game Changer Award (1/200+) [Award] and national HR innovation recognition [Award]; appointed Malaysia's hub AI representative after co-organising AI-sharing initiatives across five countries [Recognition].

DEEPDATAFUSION, Remote

**Founder (Part-Time) | [Demo Claims Recovery] | [Demo Super Consolidator]**

Oct 2023 – Aug 2026

- Built a rule-gated 7B analytics agent with deterministic post-execution verification outperforming a 32B baseline by +24 pp business-truth rate at 71% lower cost/correct answer on a pre-registered, one-shot 400-task benchmark, cutting false-success 75%→35%, zero silent wrong answers on answerable tasks [arXiv] [GitHub].
- Built an end-to-end AI platform to identify missed logistics charges, generate evidence-backed recovery claims, and support consolidation analysis; paused after technical validation to avoid ongoing infrastructure costs.

RECOMMEND.MY, Petaling Jaya, Malaysia

**Data Scientist**

Nov 2022 – Jan 2024

- Owned and built end to end 30+ production ML/AI systems including using LLM to enrich image description for optimising SEO, automated outbound sales, dynamic pricing, ML-powered retention system (F1 > 90%) and pricing optimization engine, reducing annual churn (Python, AWS EC2, SQL, Slack API, Sheet API).
- Drove 40% YoY revenue growth, achieving first profitable month in 9 years.
- Youngest best employee 2022 [Award] and 2023 [Award] (voted by 20+ colleagues). [CEO Testimonial].

**Data Analytics Executive**

Mar 2022 – Oct 2022

- Automated 10+ reporting pipelines (MySQL, Python ,Google Sheets/Slack). Built 14+ dashboards tracking metrics.

|-----------------------------------------------------------------------------------------|-------------------------------|---------------------|
| Master of Science (Data Science and Analytics)                                          | Universiti Sains Malaysia     | Graduated: Jul 2022 |
| CGPA: 3.94/4.0 Highlight: Led 5 subject teams; 2 projects top scores in CDS501 & CDS504 |                               | [Transcript]        |
| Bachelor of International Business (Honours)                                            | Universiti Tunku Abdul Rahman | Graduated: May 2019 |

Leadership and Community Engagement

- Core contributor to BrowserUse. AI browser automation. 100K+ stars [Github] [Proof].
- Kaggle Master [Award]. Ranked #228 over 60,000. Top 0.3% [Kaggle Testimonial].
- Published 4 Python packages on PyPI filling AI community gaps. [PyPI profile].
- Guest Speaker, Sunway University [Event Announcement 1], [Event Announcement 2].
- Vice President and Charter Member of a Toastmaster group, MB Elevate. [Certificate].

Dec 2024 – Mar 2025

Sep 2020 – Nov 2023

Jun 2022 – Jan 2024

Sep 2025 – Jul 2026

Sep 2025 – Present
